1. INSTALLATION

1.1 REQUIREMENTS

The following is required in order to run the Assusoft Decryptor.

- Microsoft Windows Vista or later
- Microsoft .NET Framework 2.0 or later

And the possibility to send and receive email (needed during the registration process).

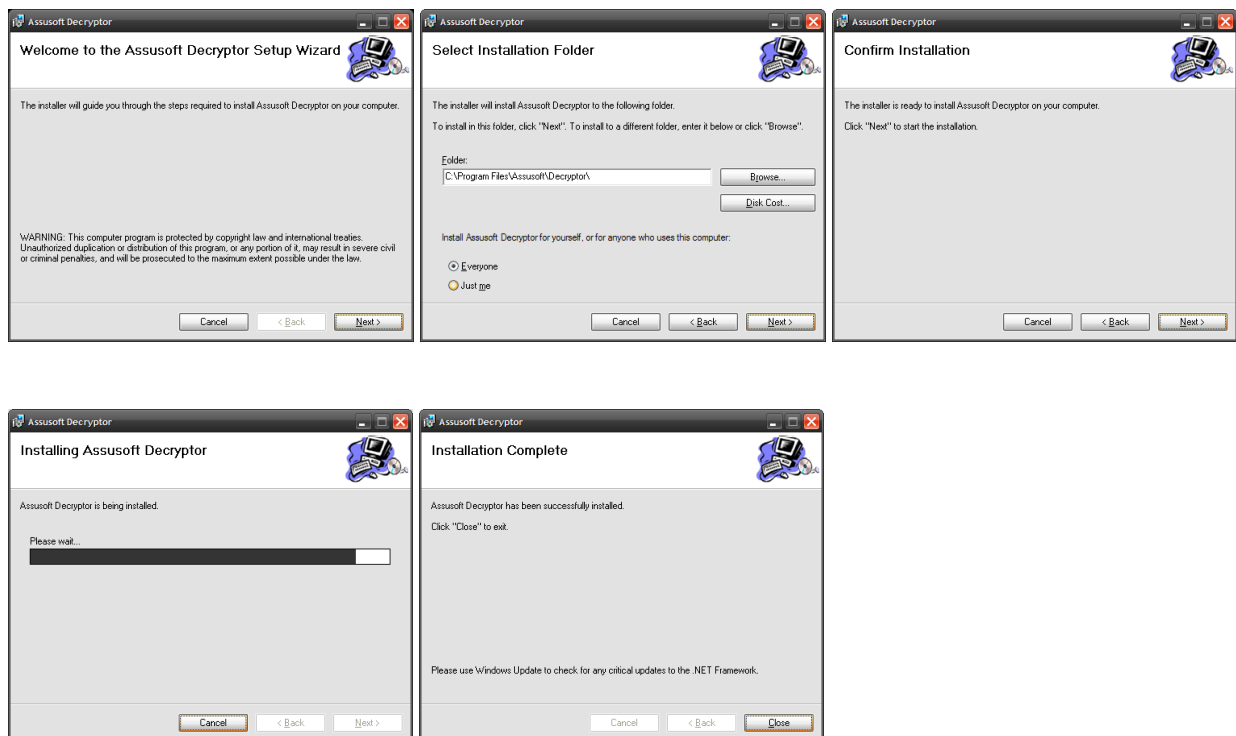

1.2 DOWNLOAD LOCATION

The Assusoft Decryptor can be downloaded via the following link.

→ [http://www.assusoft.be/downloads/Assusoft Decryptor.msi](http://www.assusoft.be/downloads/Assusoft%20Decryptor.msi)

1.3 INSTALLATION

Install by clicking on *Assusoft Decryptor.msi*. And follow the instructions on the screen.

After installation, the software needs to be activated.

2. ACTIVATION

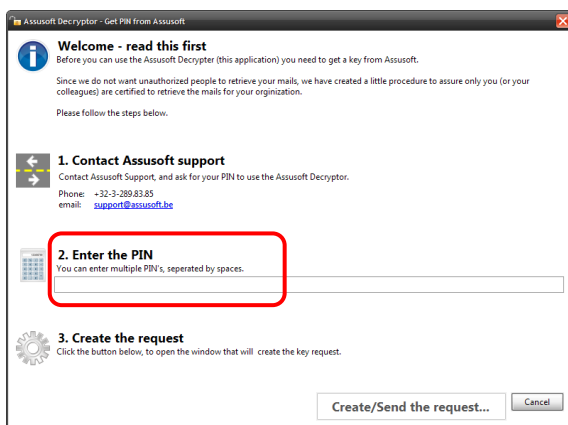

2.1 ACTIVATION: EXPLAINED BRIEFLY

- Obtain a PIN from Assusoft, and enter it in the application.
By contacting Assusoft, we can validate your need to use the Assusoft Decryptor.
- Send an email with the key request to Assusoft.
This email contains a key, which makes sure only you can read the response.
- You receive an email with the key, copy and paste this email in the Assusoft Decryptor.

2.2 ACTIVATION: EXPLAINED IN DETAIL

To start the activation process, just start the Assusoft Decryptor.

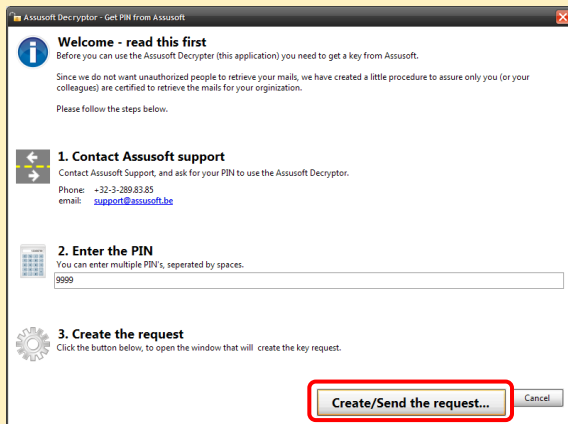

You can start the 'Assusoft Decryptor' by searching for 'Assusoft Decryptor' in the start menu.

To start the activation process, you need to know your PIN.

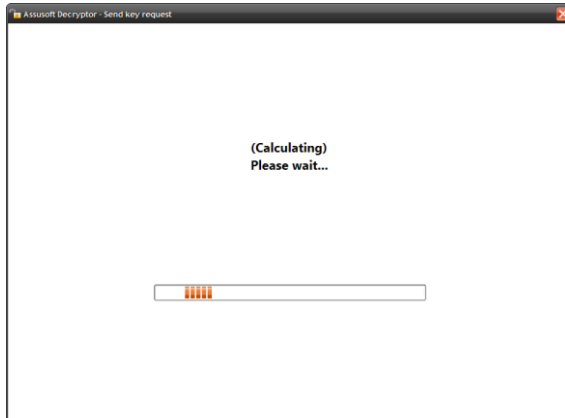

You can obtain your PIN by contacting Assusoft support:

- SUPPORT@ASSUSOFT.BE
- +32-15-69.04.14

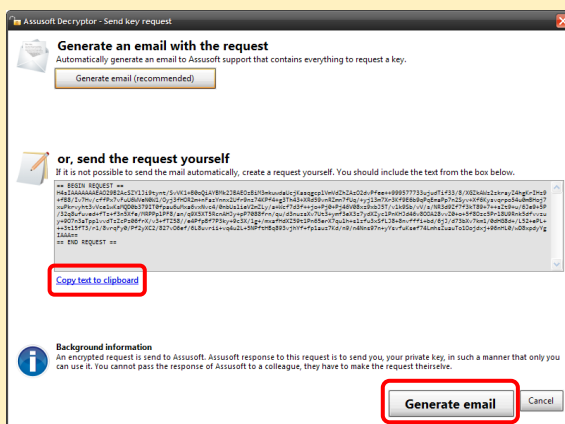

After entering a pin, the 'Create/Send the request' button is enabled.

You can press this button now.

Just wait a moment, and this screen will disappear.

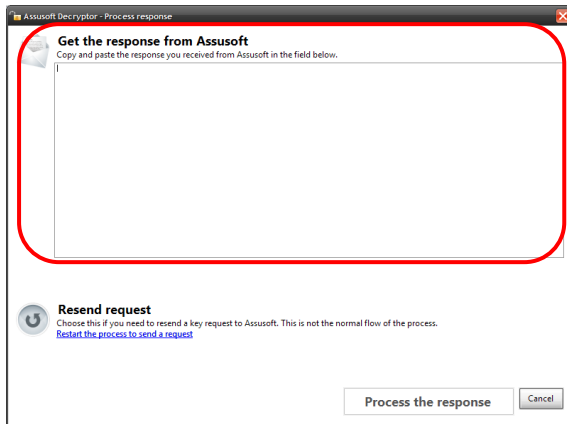

Use the **'Generate email'** button to send an email to Assusoft. This will open your default email client and generate an email with the request information included. Please send this email. The Assusoft Decryptor will close after generating the email.

If your default email client is not configured correctly above method will not work correctly. In this case you have to copy the request to the clipboard (use the link), and send the text in an email to decryptor@assusoft.be. Afterwards you can close the Assusoft Decryptor.

In case you could not send the email, you have to restart the request.

You can do this by clicking the "Resend request" button after restarting the Assusoft Decryptor. You will have to repeat above steps starting at entering the PIN code.

When you receive an email from Assusoft NV containing the response proceed to the next step.

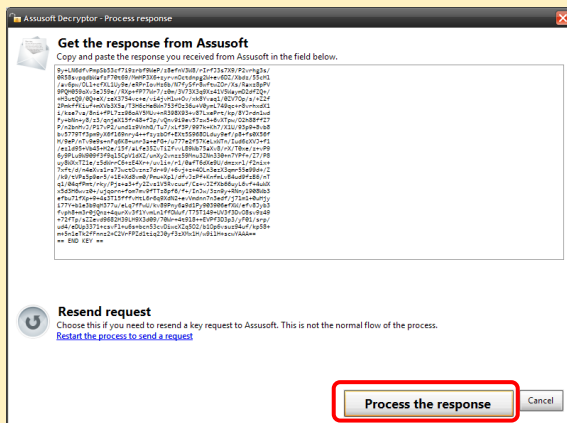

This is what the screen will look like when you start the Assusoft Decryptor again.

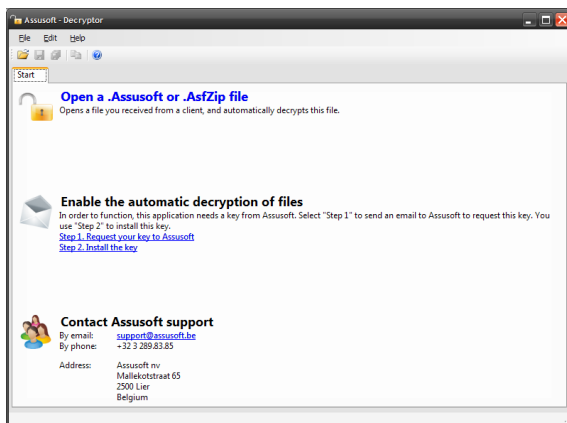

You can now copy the text from the email into the large text box.

You can copy the whole text or just the part that contains '== BEGIN KEY ==' and '== END KEY =='.

The mail you have received is strictly personal, and cannot be shared with your colleagues.

You are now ready to click the 'Process the response' button.

The Assusoft Decryptor is now activated and ready for use.

In the case you need to activate the software again, or if you need to add more keys, you can use the links provided on this page.

3. USER MANUAL

3.1 DECRYPT AND VIEW A .ASSUSOFT OR .ASFZIP FILE

Double-click on the file you wish to open, this will open the Assusoft Decryptor and show the underlying files. This files can be opened by double-clicking on them. The default program to handle this file type will open.

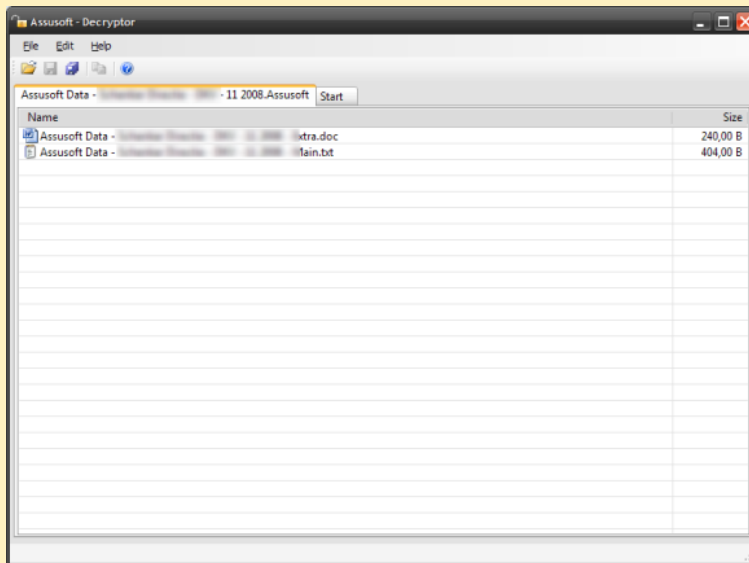

3.2 DECRYPT A FILE, AND SAVE THE CONTENTS OF A FILE

When an encrypted archive is opened you can select a file by clicking on it. Then click the  button on the toolbar to save the file on your computer.

You can also save a file by dragging it, from the Decryptor, to an explorer window, or directly into another application that supports drag & drop.

3.3 SAVE ALL FILES IN AN ARCHIVE

You can save all files by clicking on the  button on the toolbar. The Assusoft Decryptor will ask for the folder to save the files in.

An example of an opened Assusoft archive.

3.4 FAQ

- Q.** After two days, I have not received a response from Assusoft to my Key request.
- A.** First check your sent emails whether the request has been sent. If this is not the case you have to restart the activation part. You can do this by clicking the “Resend request” button after restarting the Assusoft Decryptor. If the request was sent correctly and you did not receive an answer then you can reach us via support@assusoft.be or +32-15-69.04.14.
- Q.** The activation was successful but when I try to open an encrypted archive another program tries to open it.
- A.** This happens when another program is configured to open .Assusoft and .ASFZIP files. Contact Assusoft and we will help you to solve this.
